Receives List
Of Articles
For ExportWar Trade Board Agent,
John Wright, Gets Order
For Freer Licensing.

The list of articles of food im-
ported in the new regulations per-
mitting freer export under license
into Mexico was received Friday af-
ternoon by John A. Wright, of the
war trade board in this city. The
new regulations have been promul-
gated by president Woodrow Wilson
through the secretary of state.

Corn for food, agricultural im-
plements, and many other articles are
to be allowed to go across the border to
meet the needs of the Mexican peo-
ple. The new regulations do not af-
fect sugar, wheat or meat products,
condensed milk, corn, corn meal, corn
flour, condensed milk, butter, cocoa,
dried fruit, foreign rice, in bond; lard,
milk, oil, oats, pork, pork products,
sugar, and wheat.

With the addition of lard and other
fatty substances, Mexican regions
are supplied with one commodity that
there has been a crying need for ever
since the restriction was placed on
this kind of commodities last fall.

**Want Cattle
Cases Tried
In America**
Says American Owners
Think They Have No
Standing in Mexico.

That American cattle owners who
have stock stolen from ranches lo-
cated in Mexico do not consider they
would have any standing in Mexican
courts, and that they would prefer in
all cases to have their rights deter-
mined in Texas tribunals, was the sub-
stance of testimony given by H. A.
Peterson, of the firm of Andrews and
Peterson, at an investigation begun Sat-
urday morning by justice J. M. Deaver
on the seizure by county hide and
cattle inspectors of 725 hides and
skins from Mexico to the Finigan-
Brown company, New York, via El
Paso.

"I don't think we would have any
standing or show here," said Mr.
Peterson, after explaining that the
hide of stock had been stolen from their
ranch south of Casas Grandes, al-
though that one American participated in
the theft.

Judge W. M. Caldwell, representing
the Finigan-Brown company, al-
though he admitted that the hides
here have not recognized revolu-
tionary actions in Mexico, and still
considered the property of the
company, he said that the company
of "Don" Luis Terrazas, despite any
governmental seizures that might
have taken place, would still be the
owner.

U. S. CONTROLS
SULPHUR MINESProduction and Distribu-
tion Taken Over; Much
Sulphur in Culberson.

Washington, D. C., July 12.—In-
creased demand for sulphur in the
manufacture of explosives has caused
the war industries board to pass res-
olution taking over control of pro-
duction and distribution of sulphur ma-
terials. Sulphur is produced in Texas
and Louisiana.

W. G. Wolfelt, chief of the section
in charge of sulfur and pyrites has
been named to act for the war indus-
tries board in controlling the pro-
duction and distribution of sulphur
materials.

There are large sulphur deposits in
Culberson county which would be af-
fected by an order taking over sul-
phur production. A dispatch Friday
from Cincinnati said Edward Hart of
Harlow, had passed through that city
on his way to Louisiana, where he rep-
resents the Culberson county sul-
phur interests to ask director gen-
eral W. G. McAdoo to build a railroad
extension to the fields in order to
afford an outlet for the mineral.
